

Atrium® EXPRESS CheckIt

An economical self-service solution for Atrium

In today's world, patrons have become familiar with the various self-service options offered by retail and national chain stores. Many patrons prefer the flexibility and convenience these services offer. As librarians, there is a never-ending task of figuring out ways to improve the efficiencies and workflows within the library, thus giving more time to better serve your patrons.

Express CheckIt is an integrated module for Atrium providing your library with an economical self check-out solution and adds a convenience for your patrons while social distancing.

Self-Service Checkout Module

Simple
Easy to Implement

Confidential
Private and Secure for
Patrons

User-friendly
Intuitive Patron Interface

Streamline
Improves Circulation
Workflows

See back for a variety of optional hardware and configurations.

Atrium[®] EXPRESS CheckIt

Stationary QuickScan 2D Area Imager with hands-free stand and USB connection. Quickly reads even damaged and poorly printed barcodes.

- Trigger, Flash, or Continuous modes supported
- Omnidirectional reading with 'Green Spot' technology for good-read feedback
- Working range from 0.5 to 12 inches from barcodes
- Drop resistance up to 5 feet

Finger Readers improve speed and accuracy of your library circulation. Patrons quickly become accustomed to automatically identifying themselves. Protects the identification of your patrons and does not store the fingerprint image or measurements.

- Operates with Windows 10 or greater, 32-bit and 64-bit compatible
- Requires USB connection
- No biometric data is stored

Receipt Printers provide your patrons with their current circulation information after each transaction. Receipts can be configured to include current fines owed, items out, reserved items, and show patron savings in the footer.

- 22 RPM (Receipts Per Minute)
- Drop-in paper loading
- Auto-cutter; cuts receipt paper when finished printing
- Ethernet or USB cable included

Book Systems offers a complete turn-key self check solution. The Express CheckIt module requires a license to be activated.
